EDUCATION

Umeå Universitet

Ph.D., Computer Science (Research: Formal Methods and Machine Learning)

Sep. 2020 – Sep. 2024

Umeå, Sweden

University College London

MSc., Data Science

Sep. 2018 – Sep. 2019

London, UK

R.V. College of Engineering

B.E., Computer Science

Sep. 2011 – Sep. 2015

Bengaluru, India

EXPERIENCE

Scania CV AB

Senior Research Engineer

Sep. 2024 – present

Södertälje, Sweden

Propinquity Labs

Data Scientist

June 2016 – Sep. 2019

Bengaluru, India

- Developed machine learning models to analyze satellite imagery, improving land classification accuracy by 15%.
- Implemented deep learning architectures for object detection in aerial imagery, reducing manual annotation time by 40%.
- Created a cloud-based pipeline to efficiently handle terabytes of imagery and vector data for model training and inference.

Sensus Labs

Data Scientist

Sep. 2015 – June. 2016

Bengaluru, India

- Developed deep learning models to estimate user location from smartphone sensor data, improving accuracy by 25%.
- Implemented Extended Kalman Filters (EKFs) to fuse data from inertial sensors, Wi-Fi, and Bluetooth beacons for seamless indoor navigation.
- Optimized EKFs through fine-tuning, improving positioning accuracy by 30% and reducing latency by 20%.

INTERNSHIP

Scania CV AB

PhD Research Intern

February 2024 – July 2024

Södertälje, Sweden

- Lead the development of a framework for generating secure C code, known as `spec2code`, designed to meet both formal and informal specifications using Large Language Models.

Virgin Media

MSc Research Intern

May 2019 – August 2019

London, UK

- Developed a halo-forecasting model using data from over 100,000 customers, achieving 88.4% accuracy and increasing conversion rates by 15% through targeted up-selling strategies.

TECHNICAL SKILLS

Languages: C++, Python, OCaml, Rust, SQL

Verification Tools: Lean and Coq (proof assistants), Frama-C, Dafny

Technologies/Frameworks: PyTorch, TensorFlow, Vertex AI, GCP, Docker, Kubernetes
